SEGRA®

Keeping Schools, **Staff and Students** Connected

The Quality of a School Depends on the Quality of its Tech Foundation.

Computer labs are out, smart classrooms are in. Giving the minds of tomorrow the tools they need for academic success requires more than ordinary IT can deliver.

The digital foundation of future-focused education

The mission of education is clear: preparing students for the challenges of a world that is constantly changing. Fulfilling that pledge has never been easy, but digital innovation unlocks the potential to take the learning process to new heights while injecting new challenges at every step along the way.

Segra provides public and private schools with the IT and networking solutions required to drive academic success and successfully navigate the e-learning landscape.

More than just internet ...

- High-speed dedicated fiber internet keeps your staff and students connected with symmetrical speeds up to 100 Gbps.

- Multi-site connectivity and streamlined network management enable secure, consistent district-wide performance.

- Active network defenses and DDoS protection safeguard network infrastructure and student data from exposure and exploitation

- High-quality voice and video support open, clear internal and external communications.

Why Segra?

At Segra, we understand that winning in today's business landscape requires more than just technology – it requires a strategic connectivity game plan, relentless agility and innovation, and a human touch.

We invest in our customers, our network and our people to deliver exceptional connectivity solutions and customer service that empower businesses to thrive.

Our local-market operating model means your whole team – from sales to network engineering to customer support – are all living and working in the communities they serve.

Winning Solutions That Get You More
