SEGRA®

SkyFax

An All-in-One Fax Solution That Consolidates All Fax Workflows.

POTS lines are going away, and traditional analog faxing won't survive the transition. Finding an all-in-one fax solution that is reliable and future-proof is imperative for businesses that rely on fax-based communication.

One complete, compliant and future-ready fax solution

Many organizations rely on multiple fax solutions including separate systems for email-to-fax, analog line ATAs, and integrations with EMR or document management platforms. Segra SkyFax streamlines these fragmented systems into a single, unified platform, making management easier, improving reliability, and strengthening compliance. This allows for the management of all users, numbers, and delivery routes from a singular interface, ensuring consistent HIPAA and SOX-compliant protection across every fax channel.

Additionally, it eliminates the financial and logistical burdens associated with managing multiple vendors and systems.

Benefits

Replace Aging POTS Lines: Maintain legacy fax workflows without disruption and eliminate costly copper phone lines. Gain enterprise-grade encryption and uptime, ideal for medical offices that rely on fax-based communication.

- Fax-to-Email / Email-to-Fax: Reduce paper and maintenance while modernizing fax workflows. Secure, convenient, and mobile-friendly, supporting PDFs, Word docs, and more.
- Browser-Based Fax Client: Instant, secure faxing from anywhere with an internet connection, great for remote teams or shared environments.
- Inbound Fax to Network Folder: Streamline workflows for medical and enterprise environments while maintaining compliance through secure delivery to a network folder.
- Developer-Friendly APIs: Flexible integration options for IT teams and developers, enabling custom integration into CRMs, ERPs, and more.

Why Segra?

At Segra, we understand that winning in today's business landscape requires more than just technology — it requires a strategic connectivity game plan, relentless agility and innovation, and a human touch.

We invest in our customers, our network and our people to deliver exceptional connectivity solutions and customer service that empower businesses to thrive.

Our local-market operating model means your whole team – from sales to network engineering to customer support – are all living and working in the communities they serve.

Enhanced Fax Compliance & Security

- **HIPAA Compliance Across Platform:** Our platform meets compliance across data transport, storage, support, and personnel, backed by third-party HIPAA attestation.

- **US-Based Infrastructure:** 100% U.S.-owned and operated, guaranteeing that data never leaves the country.

- **Security by Design:** Built for secure, reliable performance, protecting data in motion and at rest within a hardened platform.

Let's Create Winning Connections Together.
