

Disaster Recovery as a Service (DRaaS)

Bounce Back Before Your Team Even Knows You've Been Hit

When disaster strikes, few things matter more than a plan that makes it easy to pick up where you left off.

Disruptions are Inevitable

Losing time, money and sleep shouldn't be. Ransomware. Cyberattacks. Hurricanes. Power outages. Even routine maintenance and upgrades sometimes go wrong. Whatever the cause, getting your most important systems up and running again as quickly as possible is critical. How much would it cost your business to lose one minute? One hour? One day? Segra Disaster Recovery as a Service (DRaaS) replicates critical workloads and applications to a Segra Recovery Site in real time, where they can be brought online at a moment's notice.

Features and Benefits

- **Granular Recovery:** Minimize data loss with recovery points only seconds apart
- **Prioritize what's important:** Only protect the resources you deem necessary with flexible application tiering
- **Flexible Journaling:** Default 7-days of protection, configurable back to max of 30-days
- **Storage Agnostic:** Segra does not lock you into SAN-based solutions that require specific hardware
- **Quick Recovery:** Recover entire VMs in just a few clicks, supported by Segra engineers who specialize in disaster recovery
- **Lead Vendors:** Built on Zerto and VMWare, leaders in the DR space
- **Business Continuity:** Bring your own firewall or use Segra managed firewall services to withstand HQ or adjacent outages

Why Segra?

At Segra, we understand that winning in today's business landscape requires more than just technology — it requires a strategic connectivity game plan, relentless agility and innovation, and a human touch.

We invest in our customers, our network and our people to deliver exceptional connectivity solutions and customer service that empower businesses to thrive.

Our local-market operating model means your whole team — from sales to network engineering to customer support — are all living and working in the communities they serve.
