

Infrastructure as a Service (IaaS)

For Your Highly Available **Private Cloud Workloads.**

Modern businesses need infrastructure that can keep pace with growth while maintaining the highest levels of security and availability. The right cloud strategy helps organizations stay focused on innovation and business objectives rather than the challenges of managing underlying infrastructure.

The Right Platform for the Right Workload

Transitioning to a hosted private cloud model delivers enterprise-grade security while eliminating the high costs of managing physical hardware. Avoid compromising between data sovereignty, system reliability, and budget constraints with Segra's high-performance, scalable environment. You can protect critical workloads through strict isolation, resilient infrastructure, and industry-leading best practices.

Features and Benefits

- **Highly Available:** Server Clusters are designed with redundancies in place and operate in Tier III data center facilities
- **Lead Vendors:** Segra's IaaS is built on industry leaders across the Virtualization space
- **Scalable Design:** Grow capacity when you need to, not before – Pay as you go
- **Flexible Access:** Robust options for Public or Private Segra Networks, SD-WAN and firewall solutions
- **Infrastructure Choice:** Options for per-customer dedicated server hardware or shared multitenant hardware

Why Segra?

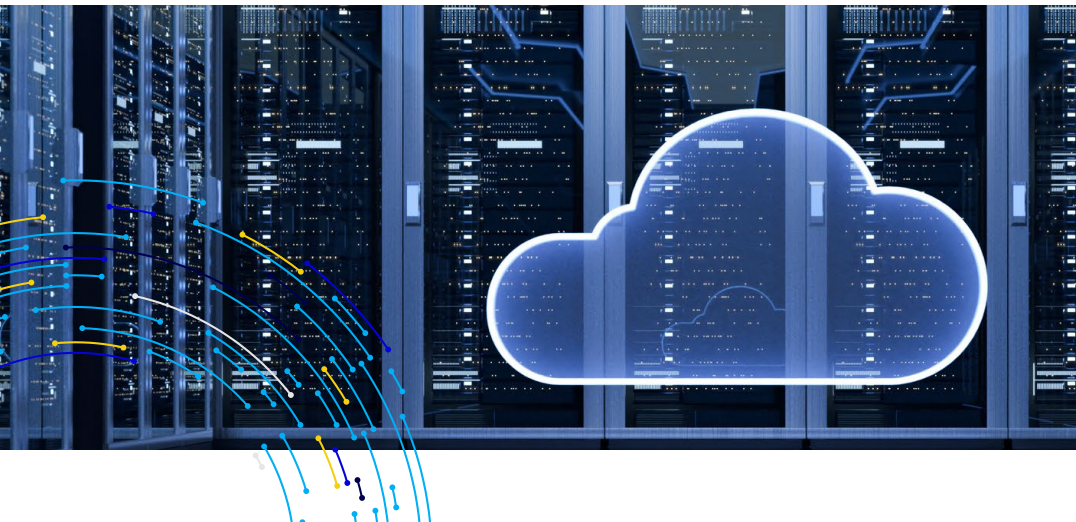

At Segra, we understand that winning in today's business landscape requires more than just technology — it requires a strategic connectivity game plan, relentless agility and innovation, and a human touch.

We invest in our customers, our network and our people to deliver exceptional connectivity solutions and customer service that empower businesses to thrive.

Our local-market operating model means your whole team – from sales to network engineering to customer support – are all living and working in the communities they serve.

Specifications

- 24x7x365 local technical support
- Real time monitoring
- High-performance and high-capacity storage tiers
- On-demand scaling options
- Evergreen hardware and licensing
- Best-in-class hardware platforms

Let's Create Winning Connections Together.
